

TOP 5 SIGNS YOU NEED A PLUMBER

1

Persistent Dripping Faucets

Even a slow drip can waste gallons of water and increase your water bill.

Plumbers in Carmichael can identify the cause and fix it efficiently.

Low Water Pressure

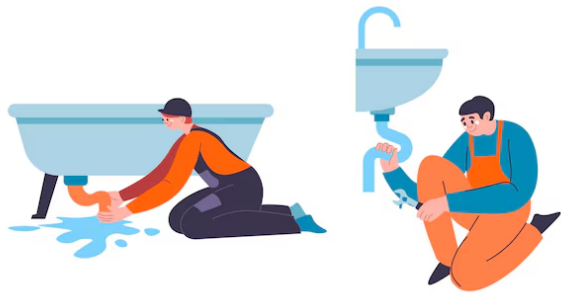

If your shower feels weak or water barely flows, it could be due to blockages, leaks, or corroded pipes needing immediate attention.

2

3

Slow or Clogged Drains

Recurring clogs in sinks, tubs, or toilets suggest deeper plumbing issues that require professional equipment to resolve.

Unusual Water Discoloration

Yellow, brown, or rusty water is a sign of aging pipes or water heater problems. Call plumbers in Carmichael to assess and restore clean water.

4

5

Unexplained Water Bills

A sudden increase in water costs might point to hidden leaks. Professional plumbers in Carmichael can pinpoint and repair the issue to save water and money.
